# **POLICE**

- SAFETY & SECURITY
- PUBLIC AWARENESS

# CITY

- FUNDS / RESOURCES
- PASSIVE RECREATION
- COMMUNITY ACTIVITIES
- COLLABORATION

SAFETY & SECURITY
INFRASTRUCTURE IMPROVEMENTS
POND MITIGATION
PASSIVE RECREATION

- PUBLIC WORKSHOPS
- COMMUNITY OUTREACH
- STAKEHOLDER INPUT
- PRIDE OF OWNERSHIP

**ESIDENTS** 

- SAFETY & SECURITY
- NOISE & ENVIRONMENT
- VIEWS INTO THE PARK
- ASSOCIATION & MAINTENANCE

## **KEEP POND**

- PASSIVE PARK / OASIS
- LOVE BIRDS
- PART OF 'LAKE FOREST'
- PEACEFUL SETTING
- NEED MORE MAINTENANCE
- ENHANCE NATURAL PARK
- TOY BOATING
- EDUCATIONAL OPPORTUNITIES
- ADDRESS WATER QUALITY ISSUES
- ADD A FOUNTAIN

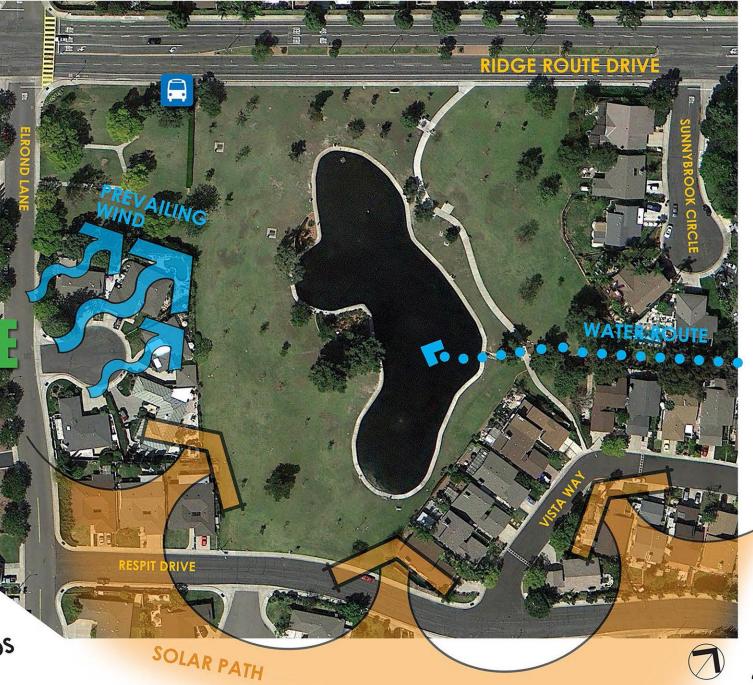

# MAINTENANC & PATROLS

- MORE SIGNS
- EXPANATORY SIGNS
- BIGGER SIGNS
- BILINGUAL SIGNS
- PERIODIC PATROLS
- FINES FOR FEEDING DUCKS
- VOLUNTEER CLEAN-UP
- ADD LIGHTING

"PLEASE DON'T "PLEASE DON'T MAKE THE BIRDS MAKE THE BIRDS MAKE THE BIRDS MAKE THE BIRDS

ADDING EVENTS = MORE PARKING...WHERE?

## **REMOVE POND**

- UNHEALTHY PARK
- CREATE MORE USEABLE RECREATION SPACE
- CREATE EVENT OR GATHERING SPACE
- CREATE A NATURAL STREAM CHANNEL
- MARK PARK USEFUL FOR ALL OUR LAKE FOREST NEIGHBORS

# BIRDS & WILDLIFE

- BIRD DROPPINGS NUISANCE
- LAWN QUALITY ISSUES
- NOISE
- PROVIDE HOME FOR BIRDS
- LIKE TURTLES & OTHER WILDLIFE
- EDUCATION OPPORTUNITIES
- KEEP MEMORIAL TREES
- PARTNER WITH LOCAL ZOOS

"THE PARK IS
OVERRUN WITH BIRDS
& THEIR DROPPINGS"

# community input

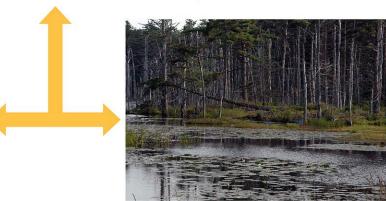

# GOAL OF LAKE WATER QUALITY MANAGEMENT IS TO CREATE A BALANCED ECOSYSTEM

### GOAL Balanced Manmade Lake Ecosystem

**SWIMMING POOL**Sterile Environment

MURKY SWAMP
Excessive Growth

# UNDERSTANDING ALGAE CYCLE IS KEY FOR WATER QUALITY MANAGEMENT

**LAKE WATER TURNOVER** 

**NUISANCE &** 

**STORM** 

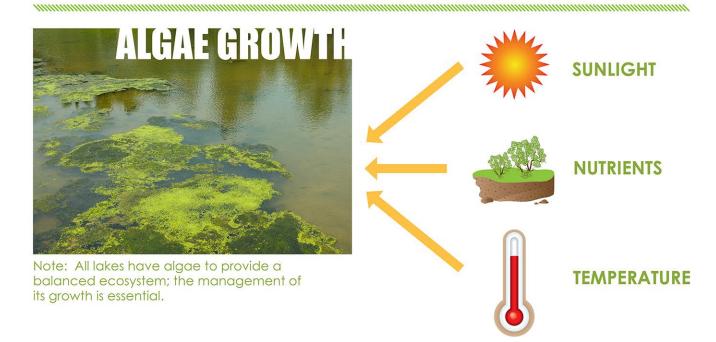

**RUNOFF** 

Shallow GW

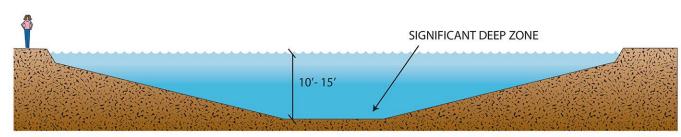

Precip

Lake

Evap

### **LAKE GEOMETRY**

#### **DEEP LAKES**

- Reduce Photosynthesis
- Provides Temperature Control

### VARYING AREAS OF SHALLOW & DEEP WATER

- Promotes Mixing
- Enhance Aeration Oxygen Transfer

# lake features (Deep GW) effecting water quality

Trees/Shrub

LEGEND
(Lake Inputs)

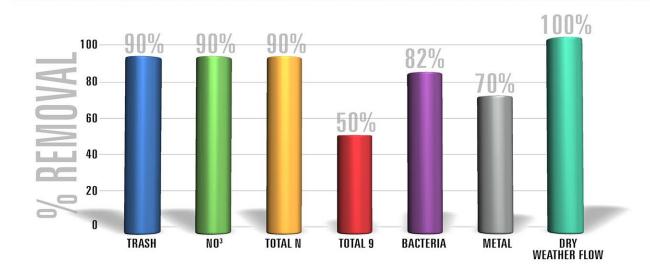

(Lake Outputs) —

Irrigation

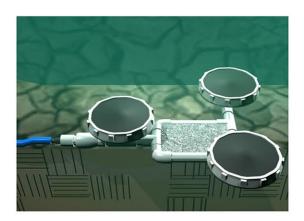

### **LAKES TREAT A WIDE VARIETY OF POLLUTANTS**

### **HORIZONTAL & VERTICAL CIRCULATION**

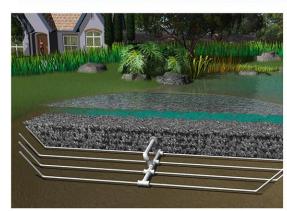

- Prevents Stagnation

#### **AERATION**

- Increases Dissolved Oxygen
- Stabilizes Water Density

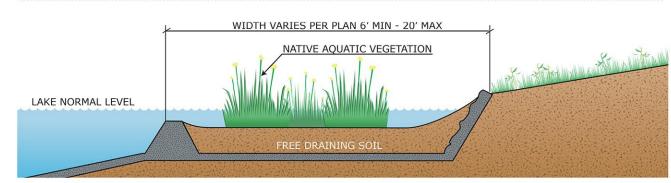

### **NUTRIENT REMOVAL: BIOFILTRATION**

Beneficial Bacteria Outcompete Algae For Lake Nutrients Natural occuring bacteria covers gravel & removes pollutants as water flows by.

### **WETLANDS**

- Suspended solids sedimentation
- Nitrate reduction to nitrogen
- Phosphorus coagulation / settling and uptake
- Biological predation of algae
- Ecosystem development

## **EDUCATION**

feeding water fowl is not good for the environment, water quality & birds

## SHORELINE EDGE CONDITION MODIFICATION

make it more difficult for waterfowl to get in & out of water

# ADD SHRUBS AND PLANTINGS TO REDUCE OPEN SPACE

birds like open spaces & presume predators hide behind shrubs

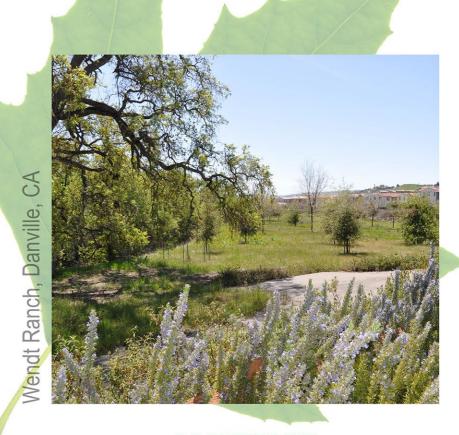

# ACTIVE RECREATION

renovate park with large all-access playgrounds

### PASSIVE RECREATION

revitalize park with fitness trail, picnic areas, seating & shade

## NATIVE RESTORATION

create a sustainable park with seasonal stream channel through previous pond location
